CERTIFIED SUSTAINABILITY: WEINGUT MÜLLER-CATOIR EARNS FAIRCHOICE CERTIFICATION

Official recognition for our holistic commitment to sustainability—featured on the label starting with our new collection release.

Responsible viticulture extends far beyond our vineyards. We are proud to announce that our estate has been officially awarded the **FairChoice certification** for audited sustainability. Starting this year, this milestone is directly visible on our bottles: with the release of our new collection—featuring our 2025 white wines and 2024 red wines—every bottle from our estate will carry the seal on its label.

The FairChoice certification is based on a comprehensive, scientifically backed framework that evaluates our entire operation across three fundamental pillars:

The Pillars of FairChoice Certification:

- **Ecology:** Protecting soil health, promoting biodiversity in our vineyards, and optimizing energy efficiency in our cellar operations.
- **Social Responsibility:** Ensuring fair working conditions, job security, and maintaining deep ties to our local community.
- **Economy:** Sustainable, long-term business practices combined with an uncompromising focus on wine quality.

This certification serves as independent validation of values we have lived by for years: treating our environment, team, and heritage with lasting respect.
