
MANDELGARTEN

Gimmeldingen

VDP.Erste Lage

DESCRIPTION

In the Mandelgarten where today vines are planted, almond trees blossomed in the Middle Ages giving the site its name. The soil is comprised of coarse sandstone gravel with layers of loess. Even in dry summers, a water vein, which sits at a depth of two meters and lies on a layer of clay, optimally supplies the vines with water.

VINEYARD

Vineyard site: Gimmeldinger Mandelgarten

Soil: Löss

Vines: 27 years

Height above sea level: 150-170 m
